Haier AIR CONDITIONING

Professional Smart
& Healthy Air Solutions Provider

OUR VISION

To be a recognized leader in global HVAC industry by innovation in technology, product and business model.

OUR MISSION

Through our innovation in smart control, air quality, heating & cooling performance, and service to ensure comfort made easier.

Haier BRAND STORY

The Internet era is a diverse and unconventional time, where one-size-fits-all products or solutions are simply not enough. Consumers want to be treated as individuals and respected for who they are.

Everyone wants their unique lifestyle acknowledged. That is why Haier listens closely to you in order to gain genuine understanding of what is going on in your life and what is on your mind. So each of you can get the smart home experience you deserve: be it simple, sophisticated, organized and enjoyable.

As a worldwide industry leader, Haier innovates beyond products and solutions, and turns the organization into a wholly connected platform. In doing so, internal and external resources are connected quickly and easily. We believe only by doing so, we can best meet our consumers' expectations in this rapidly evolving world.

Be part of the Haier network, create new possibilities.

Haier GLOBAL POSITION

WORLD'S NO.1 MAJOR APPLIANCES BRAND

Haier achieved 12-year global No.1 in major household appliances by retail sales from 2009-2020, according to data from Euromonitor.

TOP 100 GLOBAL CHALLENGERS

Boston Consulting Group (BCG) released the list of "2018 top 100 global challengers", with 25 Chinese companies including Haier on the list.

TOP 100 MOST VALUABLE BRANDS

Haier, the world's only IoT ecosystem brand on the list for two consecutive years.

WORLD'S NO.1 SMART AC BRAND

Haier has been world's No.1 connected air conditioner brand (including smart ACs), with a market share of 31% by retail sales in 2020, according to data from Euromonitor.

FORTUNE'S MOST ADMIRABLE COMPANIES

Haier Smart Home was named one of Fortune's most admired companies in the world for 2019 and is the only appliance company from Asia to receive this award.

FORTUNE GLOBAL 500

In 2021, with the global landing of the Smart Home ecosystem brand, Haier Smart Home was once again listed on the Fortune Global 500, moving up 30 ranks compared to last year.

Haier GLOBAL NETWORK

Haier owns 10+N R&D centers, 25 industrial parks, 122 factories, 106 marketing centers, and sales networks in over 160 countries and regions.

Haier boasts 7 major household appliance brands globally: Haier, Casarte, Leader, AQUA, Fisher&Paykel, GE Appliances and Candy. They constitute Haier's global brand cluster that provides the best experience for different consumer groups in different regions across the globe.

Global No.1*10 Years	Top 100 Global Brand	10+N R&D Centers	106 Marketing Centers	25 Industrial Parks	122 Factories	160+ Countries or Regions
----------------------	----------------------	------------------	-----------------------	---------------------	---------------	---------------------------

Haier AC MILESTONES

1984

Founded in Qingdao, China.

1993

Launched China's first inverter AC.

1994

Acquired ISO9001 certification.

1996

Launched China's full range of light commercial.

1999

Started exporting AC to the U.S.

2014

Established new AC R&D center.

2015

Established IoT-based AC factory.

2016

Acquired GE Appliances.

2018

Acquired Candy, and launched Jade series.

2021

5-running-year global No.1 connected AC brand.

Haier AC MANUFACTURING CAPACITY

In China, Haier owns 8 air conditioner factories, 1 of which is MHAQ, a JV between Haier and Mitsubishi Heavy. Besides China, Haier runs another 8 overseas air conditioner factories. These factories have a total production capacity of over 27.2 million units per year.

Haier AIR SOLUTIONS

Comfort Made Easier

ULTIMATE HEALTH

ULTIMATE SMART

ULTIMATE COMFORT

ULTIMATE FIT

ULTIMATE HEALTH

Always Clean, Always Cool

Air pollution is becoming widespread in emerging economies. Long exposure to polluted air threatens our health. When you breathe, pollutants such as PM2.5 are inhaled. They cause discomfort, and may lead to lung or heart disease. Besides, there are numerous allergen- & asthma-suffers worldwide who are vulnerable to pollen, mold spores, smoke, gases and chemicals. They need cleaner air to have the peace of mind. In 2020, the Covid-19 pandemic has brought large-scale disruption to our lives. The healthy air for us to breathe becomes more important to us than ever before.

Haier has been dedicated to healthy air innovations over the past years. With our advanced technologies, we keep our air conditioner clean all the time, and ensure the airflow blowing out is always healthy for us.

Maintain AC Clean

Self-Clean

56°C Steri-Clean

Self-Hygiene

Easy to Clean

Deliver Healthy Air

UVC Sterilization

Puri-Clean

IFD Sterilization

Nano-Aqua Sterilization

Ultimate Health Feature I MAINTAIN AC CLEAN

SELF-CLEAN

Freezes the evaporator with moisture in the air, and removes away dirt in melting, ensuring healthy air that comes out of air conditioners.

56°C STERI-CLEAN

Kills bacteria and viruses by heating the evaporator to 56 C high temperature for 30 minutes.

SELF-HYGIENE

Applies silver nanoparticles into components where air circulation flows through to kill molds and bacteria that threaten our health.

EASY-TO-CLEAN

Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and filter for deep cleaning.

Ultimate Health Feature II DELIVER HEALTHY AIR

SUPER-IFD

Absorbs and kills virus and bacteria in field with efficiency up to 99%.

PURI-CLEAN

Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoy comfortable air conditioning.

NANO-AQUA STERILIZATION

Ionizes the air and releases positive and negative ions to sterilize the air with efficiency up to 97.5%.

UVC STERILIZATION

Emits UV light to sterilize the air passing through with efficiency up to 99.998%.

SELF-CLEAN

Freezes the evaporator with moisture in the air, and removes away dirt in rapid melting, ensuring the air that comes out of air conditioners is always healthy for you.

TECHNOLOGY

Dirt accumulates on the evaporator during operation. If not cleaned regularly, the dirt leads to the growth of mold and bacteria that compromise the air quality coming through the air conditioners. It also reduces air conditioning efficiency by 15-30%.

Cold Expansion Technology

Frost on the evaporator/condenser generates strong cold expansion force that can easily peel off dirt on the surface.

Express Washing Technology

Hydrophilic aluminum with smaller angle helps increase water drainage efficiency by 20%.

Anti-bacteria Technology

The coating on the aluminum contains silver nanoparticles that kill bacteria and inhibit their growth with up to 99% efficiency.

BENEFIT

Cleaner, More Efficient Air

The technology kills bacteria and keeps the evaporator clean. It enables the AC to work at full cooling capacity and deliver cleaner air.

Saving Cleaning Cost

Manual cleaning from service technicians costs a lot of money. It allows you to clean your AC regularly with a simple tap on your controller.

TUV Certification*

*The Verification on Cooling Expansion Rate & Defrosting Residual Rate of Air Conditioner with Self-Cleaning Technology is tested on model AS09FBHRA by TUV Rheinland. The test report shows that the cooling expansion rate is 98.2% and defrosting residual rate is 0%.

*Haier has been the world's No.1 Self-Clean air conditioner brand for 2 years in a row with a market share of 43.4%. (Data from Euromonitor International as of Feb. 2020)

56°C STERI-CLEAN

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

TECHNOLOGY

Smart Frequency Control

It intelligently adjusts the compressor frequency to control the coil temperature and then maintains the evaporator at 56°C high temperature.

High Temperature Sterilization

Almost no bacteria and viruses can survive at 56°C for 30 minutes based on latest research. Once the heating process is done, the evaporator is cooled down instantly to achieve better sterilization performance.

BENEFIT

Delivering Healthier Air

56°C high temperature sterilization dries the components inside, and kills bacteria and virus, ensuring healthy air coming out of air conditioner.

Easy-to-Operate

The function is available via Haier Air 2 app, and you can turn it on with just a simple tap.

SGS Certification*

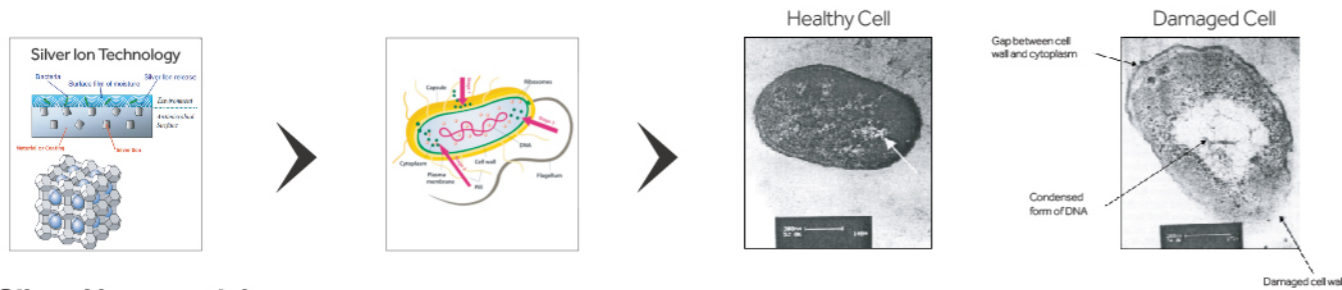

*The Verification of 56°C Sterilization with a Duration of 30 Minutes is tested on model AS09JBHRA/1U09MEJRA by SGS. The test report shows that the measured temperature of evaporator surface and heat exchanger is higher than 56°C for over 30 minutes.

SELF-HYGIENE

Applies silver nanoparticles into components where air circulation flows through to kill molds and bacteria that threaten our health.

TECHNOLOGY

Silver Nanoparticles

Molds and bacteria are widespread in the room air. They compromise air quality and cause diseases. When air conditioner is turned on, fan blows, and then dirt is attached to the components of the indoor unit. These elements lead to the growth of mold and bacteria. Silver nanoparticles continuously release a low level of silver ions to provide protection against molds and bacteria.

Indoor fan. Integrated bottom frame with drain pan

BENEFIT

Blowing Healthier Air

Molds and bacteria are no longer able to grow on the components where air flows through, and silver ions bring no harm to human body. Thus, the air comes out of the air conditioner is always healthy.

Saving Cleaning Cost

Regular cleaning and sterilization is necessary to keep the surface inside clean. It saves the cost from sending for service technicians to do the cleaning.

Maintaining AC Clean

It could effectively inhibit 6 kinds of molds; anti-mold class reaches 0 Grade (-None). The application of silver nanoparticles into components where air circulation passes through eliminates bacteria and mold with efficiency up to 99.9%.

SGS Certification*

*Based on SGS Anti-Bacterial and Anti-Fungi Tests on samples of AS+GF30 Antibacterial, ABS+HRABS-RS (White), PP-HR-2037 (White), and PS-HG-3001 (White), which are applied into models with Self-Hygiene technology, the report shows that anti-bacterial efficiency is 99% and anti-fungi efficiency is 0-Grade.

EASY-TO-CLEAN

Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and filter for deep cleaning.

TECHNOLOGY

Easy Access Fan & Air Duct

- Open the front panel
- Detach the bottom cover
- Unplug the terminals and take out the motor and fan

BENEFIT

Keeping AC Clean

Regular cleaning of the core components including fan and air duct is crucial to maintaining the AC clean.

Saving Cleaning Cost

The innovative design improves the disassembly of the AC dramatically. It saves a lot of time and money if you do it on your own.

SGS Certification*

*The Verification of 5-star Easy-to-Clean Compliance is tested on Q/PHKT J09230-2021 standard by SGS. The test report shows that the star rating of Haier Expert series air conditioner (refer to the test report for detailed model numbers) on the PCB disassembly, motor disassembly, and fan disassembly is 5 star, which is the highest the rating scale.

PURI-CLEAN

Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoying comfortable air conditioning.

TECHNOLOGY

Super IFD Filter

The advanced filter mesh comprises of 6818 ventilation holes with contact surface as large as 8180cm². When the air purification is turned on, static electricity is generated to absorb airborne hazards.

Smart Air Quality Sensor

High definition sensor installed in the air inlet detects dust and allergens in the air and displays real-time information on the screen. When the air quality is good, the indicator is green. When poor, it turns red to alert.

Convertible Design

The IFD filter is in the front of evaporator under normal conditions. When the room air quality is identified as poor and air purification is switched on, the IFD filter moves upwards to cover the whole air inlet.

BENEFIT

Powerful Air Purification

The CADR (clean air delivery rate) is up to 300m³/h on 18K models. It enables the air conditioner to clean the whole room air within 15 minutes, which is the same performance as professional air purifier.

TUV*/Intertek** Certification

*The Verification on Air Purification Performance of Air Conditioner with IFD Purify Technology is tested on model AS18JD4HRA by TUV Rheinland. The test report shows that the CADR is 300m³/h.
**The Purifier Efficiency Test Report is tested on model AS35JB4HRA-W by Intertek. The test report shows the air conditioner is capable of removing smoke, dust and pollen.

SUPER-IFD STERILIZATION

Absorbs and kills viruses and bacteria in field with efficiency up to 99%.

TECHNOLOGY

Powerful Static Electricity Absorption

IFD filters owe their exceptional efficiency to the creation of a powerful electrical attraction between airborne particles and the interior surfaces of the filter. To achieve this, the particles are given a positive or negative charge before they enter the filter.

Efficient Sterilization

IFD filter is highly effective at capturing and trapping microbes such as germs, bacteria, viruses, molds, etc. It captures up to 99.99% of airborne particles that are 0.3 microns in diameter, which is smaller than virtually all viruses, bacteria and spores.

BENEFIT

Deliver Healthy Air

Super-IFD Sterilization can efficiently kill airborne bacteria & mold and effectively filter out anaphylactogen such as pollen, dust (PM2.5 & PM0.3).
Sterilization Rate: > 99%

Easy-to-Clean

The IFD filter is in detachable design. When the filter is dirty after long-time usage. It can be reused after washing instead of costing extra money to buy a new one.

SGS Certification*

*The Bacterial Removal Rate of Staphylococcus Albicans and Escherichia Coli is tested on model AS25JB4HRA-W by SGS. The test report shows that the bacterial elimination rate is up to 99.3%.

NANO-AQUA STERILIZATION

Imagine that you are in the forest, and then take a deep breath. That's refreshing and cheerful. Haier Nano-Aqua Sterilization technology revives that feeling even when you stay indoors.

TECHNOLOGY

Highly Efficient Ionizer

Water molecular in the air is ionized into 60mn positive and negative ions in the size of 5-20nm and being released into the air. The ionization draws out radicals significantly in the moisture air to further interact with odorous substance, so it can restore a fresh environment.

Meanwhile, these ions bond together with bacteria and viruses to inhibit the spread of airborne hazards with efficiency up to 97.54%.

BENEFIT

Deliver Refreshing Air

Nano-aqua sterilization increases negative ions in the air that significantly improves the air quality to ensure your fresh breath.

Keep Comfortable Humidity

The ions effectively retains your skin moisture to keep your skin smooth and glowing. It gives your better way to enjoy higher quality of life.

Intertek Certification*

*The Bacteria Resistant Efficiency Testing is tested on model HSU-07HNF303/R2-G by Intertek. The test reports shows that the anti-bacteria efficiency of nano-aqua sterilization is up to 97.54%.

UVC STERILIZATION

The built-in LED UV light kills airborne hazards when the air circulates from air inlet, and delivers healthy air to your room.

TECHNOLOGY

UVC Wavelength

UVC is the shorter, and more energetic wavelength ranging from 200-280nm of the sunlight spectrum. It is particularly efficient in destroying genetic material.

Built-in UV Lights

The UV lights emit rays near the air inlet where room air circulates into the AC. The airborne hazards are instantly get killed when passes through the area.

Safety Lock

When the front panel is open, the air conditioner will automatically turn off the UVC lights. It avoids potential risks that human bodies get directly exposed.

BENEFIT

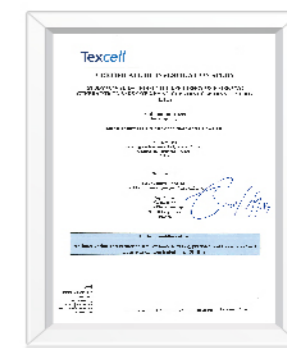

Safe, Reliable Operation

It eliminates the airborne hazards, with no harmful chemicals, no residuals, and no burden to the environment.

Efficient Sterilization

Haier UVC sterilization utilizes the wavelength between 265-275 nm, which is stronger in destroying the invisible pollutants in the air.

Texcell Certification*

Texcell*/TUV** Certification! The UVC GENERATOR installed on Haier air conditioners has the function of inactivating and inhibiting Covid-19 virus based on the STUDY OF VALIDATION OF THE EFFICIENCY OF UVC GENERATOR ON SARS-COV-2 BY NO GLP VIRUS CLEARANCE STUDY (FIO) carried out by Texcell, a global contract research organization. The Test report shows that an inactivation and reduction titer of 4.79 (99.998%) log of Sars-Cov-2 in 1 hour was demonstrated in a 45L box! The Verification on Bacteria Elimination Rate of Air Conditioner with UVC Sterilization Technology is tested on model AS09FAHRA by TUV Rheinland. The test report shows that the bacteria elimination rate of UVC sterilization technology is up to 99%.

ULTIMATE SMART

Embrace the Connected Future

Recent years have seen the rapid development of telecommunication and IoT technology. Now there is few you can't do with just simple taps of your fingers on your smartphones. Smart appliances become the new household trend where Haier has taken the lead. With smart functions, you can customize the services on your needs, control your air conditioner from anywhere and anytime, and so much more.

Since earlier exporting to Italy in 2013, we are selling smart air conditioners to over 130 countries and regions, with sales volume exceeding 25mn units globally. As of March, 2021, Haier has been the world's No.1 connected AC brand for 5 years in a row with a market share of 31%, according to Euromonitor International, a world's leading market research agency.

Voice Control

WiFi Control

Eco Sensor

VOICE CONTROL

Even though you have the control in the palm of your hand, you don't always have a hand to spare. With Haier smart air conditioners, you will be able to have hands-free voice control.

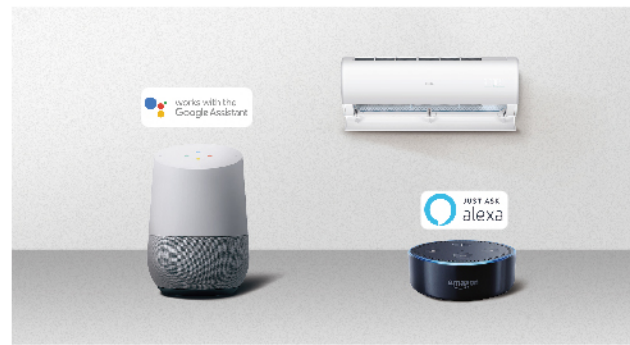

TECHNOLOGY

External Voice Module

The socket-shaped module bridges you and your air conditioner via your voice. Just talk to it and get things done when you don't find your remote controller.

Third-Party Speakers

Google Assistant and Amazon Alexa allows you to interact with your air conditioner in a more intuitive way using voice.

BENEFIT

Intuitively Hands-free Control

Here are some of the ways you talk to Alexa to control your Haier smart air conditioners.

Turn on/off the air conditioner.

Is the air conditioner on/off?

Set the air conditioner to 20 degree.

What is the temperature set on air conditioner?

Set the air conditioner to heat/cool/smart mode.

What mode is the air conditioner set?

Set the air conditioner to low/medium/high/auto speed.

What is the air conditioner speed?

WI-FI CONTROL

Imagine when you're hurrying back to your home in hot summer, or lying on the sofa at home but cannot find the remote controller. What you want is easily accessible control to your air conditioner from anywhere and anytime with Haier Smart Air 2 app on your phone or tablet.

TECHNOLOGY

WiFi Module

ANDROID APP ON Google play

Available on the iPhone App Store

BENEFIT

Customized Service

Here are some of the functions you can enjoy with "hOn" app.

	<p>Group Control Control multiple units with only one smart phone in hand.</p>		<p>Smart Reminder Sends regular notifications to user to clean the filter mesh.</p>
	<p>Weekly Timer Sets temperature and fan speed for the week to come.</p>		<p>Error Alert Error code is shown on the app when it malfunctions.</p>
	<p>Convenient Control Controls air conditioner from anywhere and anytime via network.</p>		<p>Voice In APP Built-in voice control makes convenience for the interaction.</p>
	<p>Custom Program One button for user DIY program</p>		<p>Holiday Mode Setting holiday mode with one touch, just enjoy without worrying.</p>
	<p>Energy Consumption Know your electricity consumption in real time</p>		

ECO SENSOR

Detects the room air conditions and human activities in real-time monitoring. The air conditioner switches working mode based on detection to improve energy efficiency and enhance user experience.

TECHNOLOGY

Exclusive Experience

Larger area detection and precise location of human body guarantee best experience to users. Light sensor detects any change in light intensity. When the night falls or light is turned off, the air conditioner is turned into "sleep" mode.

Vertical Sensing Area

Horizontal Sensing Area

BENEFIT

Comfortable Experience

If there is people in the A area, the airflow will follow the people in A area when the FOLLOW mode is turned on.
 If there is people in the B area, the airflow will avoid direct contact with the people in B area when AVOID mode is turned on.
 If there are people identified in both A and B area, the air conditioner will automatically enter into left/right Swing mode.

Energy-Saving

Eco sensor intelligently recognizes the existence of human bodies in the room. When the room is empty, the air conditioner is switched to energy-saving mode in 20 minutes.

**ULTIMATE
SMART**
Embrace the
Connected Future

ULTIMATE COMFORT

Care for Your Experience

As the constant advancement of air conditioning innovations, basic cooling and heating can no longer meet the evolving consumer demands. Haier provides the most comfortable air conditioning experiences to users.

The PID inverter technology enables air conditioner to reach desired temperature much quicker, and maintain it precisely. It delivers faster, and more comfortable cooling performance. With innovative Triple Airflow, we utilize unique dual-blade air deflector that generates stronger, more concentrated airflow, and send it to every corner of your room. We also provide whispering air conditioning that is quiet to 15db (A), and so much more.

Hyper PCB

Inverter PLUS

Anti-Corrosion

Coanda Plus Airflow

I Feel

Whispering Air

HYPER PCB

Provides consistent, powerful cooling with optimized design to cope with voltage fluctuations and unexpected damages that may lead to malfunction of the air conditioner.

TECHNOLOGY

Thicker Conformal Coating

The PCB is covered with thicker conformal coating that is better than the conventional to protect against moisture, chemicals, insects and extreme temperatures.

FR-4 Material

The property of FR-4 material is flame-resistant and excelled in retaining its high mechanical values and electrical insulating qualities in both dry and humid conditions.

Compact Design

The design is smaller and takes less space than the conventional. It minimizes its influences to heat exchange efficiency of the condenser, and gives larger room to other components.

Smart Power Module

Built-in high definition temperature sensor controls the working efficiency of the compressor to achieve superior cooling and heating performance.

BENEFIT

More Stable

The PCB works stably between 130V-264V. It can start at the minimum of 130V. It enables air conditioner to provide consistent cooling in harsh environment.

More Durable

Special design and better conformal coating protect its components against various elements that reduce its lifespan.

INVERTER PLUS

Integrates TLFM inverter control, PID inverter control and A-PAM inverter control to achieve smart control of the air conditioner, and in the meanwhile, maximize comfort, reliability and efficient performance.

TECHNOLOGY

TLFM Inverter Control

TLFM, or Triple Linkage Frequency Modulation, inverter control utilizes 3 different voltage controls to manage the optimal operation efficiency at every frequency phase.

PID Inverter Control

PID, or Proportion Integration Differentiation, inverter control maximizes the working frequency before reaching the desired temperature, and after that, constantly makes real-time adjustments to match room air temperature with the desired temperature.

A-PAM Inverter Control

A-PAM, or Adoption-Pulse Amplitude Modulation, inverter control automatically adjusts DC bus voltage in accordance with the compressor load, to increase operation voltage range.

BENEFIT

Energy-Saving Performance

Inverter Plus achieves high working efficiency at all frequency phases. The cooling/heating performance is much faster and more powerful.

Cool, Comfortable Airflow

When the air conditioner is on, Inverter Plus reaches desired temperature much quicker than the conventional, and then maintain it with $\pm 0.1^\circ\text{C}$ precise temperature control.

Reliability

The working voltage range is 130V-264V. It can start at the minimum of 130V. In remote areas, users can enjoy cool air despite power fluctuations.

ANTI-CORROSION

Protects air conditioner from the damaging caused by harsh environment in costal regions where the air is high in humidity, salt, chemicals and acid, to enhance the reliability and air conditioning performance.

TECHNOLOGY

- Anti-Corrosive Blue Fin**
 The blue fin coil is highly effective in protecting the evaporator against dust, moisture and corrosive agents.
- Anti-Corrosive Tube Plate**
 Anti-corrosive properties are applied to the tube plate to increase durability.
- Anti-Corrosive Copper Tube**
 The special coating on the U-shaped copper tube prevents from rusting and gas leakage.

BENEFIT

More Durable

The anti-corrosive design increases the durability of the AC, and saves our money from sending for service technicians.

More Reliable

The anti-corrosive design prevents the copper tube damaging and gas leakage, to ensure the best air conditioning performance.

COANDA PLUS AIRFLOW

Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.

TECHNOLOGY

The Triple Airflow, made up of 3 parts under micro-perspective, delivers superior cooling experience to every corner of your room.

Wind direction changed

The application of the dual-blade curve creates the unique Archimedean spiral that directs the cold airflow upwards by 35 degrees from the horizontal.

Wind speed pushed up

The Venturi effect generates strong pressure when cool airflow goes through the space in-between the dual-blade air deflector to make the airflow speed as high as 11m/s.

Airflow centralized

The airflow below the air deflector, absorbed tightly by the negative pressure generated by the faster airflow in-between, joins the main airflow and makes it even more stronger.

BENEFIT

Faster, Stronger Cooling

The airflow is evenly dispersed from the ceiling to the floor of your room. It's faster and more comfortable.

Superior Cooling Experience

The airflow circulates to every corner of your room. There is no big temperature difference inside your room where you can enjoy superior cooling experience.

*The Wind-Free experience is limited to restricted conditions that user should within the area 3m*1.8m next to the air conditioner, and may vary on different circumstances.

I FEEL

Detects the temperature around you with the remote controller no matter where you are in the room. So the air conditioner will optimize its operation based on the information to provide better air conditioning experience.

TECHNOLOGY

The performance of air conditioner may vary in different working conditions. If the room temperature is higher/lower than expected, you will feel uncomfortable. I FEEL is the least Haier can design but matter the most to your experience.

Built-in Temperature Sensor

With the high definition temperature sensor built inside, the remote controller of the air conditioner can precisely monitor the temperature around.

Easy Control

With a click on I FEEL button on the remote controller, the air conditioner receives real-time temperature data and optimize working conditions to match the desired temperature set by users.

BENEFIT

Comfortable Experience

The function optimizes the working conditions of air conditioner to deliver airflow at the best temperature that you need.

WHISPERING AIR

Have you ever disturbed by a noisy air conditioner humming all day and all night? In hot summer, powerful air conditioning is simply not enough. Quiet operation is equally important to have the inner peace of mind. Just enjoy both of the them with Haier whispering air quiet to its lowest level of 15dB in mute mode.*

TECHNOLOGY

Optimized Air Duct

The air inlet is enlarged by 17%. The space between the evaporator and the front panel, and the air outlet are also enlarged. The optimization helps reduce the noise.

Optimized Cross Flow Fan

The inclination angle of the fan is optimized to 25° to make sure the air flow more concentrated to minimize the noise.

Special Electronic Control

The special electronic control system uses A-PAM DC inverter technology and DC fan motor. It provides high static pressure capability to minimize the operation noise of the indoor unit.

BENEFIT

Quiet, Cool Air

*15dB(A) whispering air is even quieter than your imagination. While the air conditioner is working, you don't notice its existence. Therefore, you can concentrate on what you're doing.

ULTIMATE FIT

Flexibility with Ease

Easy installation concerns a lot to installers' working efficiency, and it means more income to them during peak season. Haier Flexis air conditioner is truly easy to install with various optimized components. The optimized wall mounting plate gives detailed information for quick installation. Extended kickstand facilitates the installation with larger operation space. Meanwhile, it's easier to dismantle and maintain the air conditioner with easy access fan motor and control board.

Easy to Install

Easy to Disassemble

EASY-TO-INSTALL

Concerns a lot to installer's working efficiency, and means more income to them during peak season as well. Haier air conditioner is truly easy to install with various optimized components.

EASY-TO-DISASSEMBLE

Optimizes the structure of the indoor unit of air conditioner by simplifying the disassembly of core components including PCB, motor and fan, making the maintenance and cleaning easier than ever before.

TECHNOLOGY

Optimized Mounting Plate

Positioning specifications help fix the mounting plate and hang air conditioner at proper position.

Extended Kickstand

Makes the installation easy with larger operation area.

Optional Drain Piping

Offers left/right 2 drainage piping directions that give more flexibility to installation.

Wider Tubing Space

Saves installation time with larger operation space for piping and wiring.

Detachable Bottom Cover

Helps open the bottom to connect piping and wiring without using screw driver.

External Switch

Turns on/off the air conditioner to check the working conditions without using remote controller.

TECHNOLOGY

PCB Disassembly

- Open the front panel
- Open the PCB cover
- Unplug the terminals and take out the PCB

Fan and Motor Disassembly

- Open the front panel
- Detach the bottom cover
- Unplug the terminals and take out the motor and fan

BENEFIT

80% Faster PCB Disassembly*

90% Faster Motor Disassembly*

95% Faster Fan Disassembly*

SGS Certification*

*The Verification of 5-star Easy-to-Clean Compliance is tested on Q/HKT J09230-2021 standard by SGS. The test report shows that the star rating of Haier Expert series air conditioner (refer to the test report for detailed model numbers) on the PCB disassembly, motor disassembly, and fan disassembly is 5-star which is the highest of the rating scale.

FEATURE GUIDE

Haier Air Conditioning

Ultimate Health

	Self-Clean	Freezes the evaporator with moisture in the air, and then removes away dirt in melting, ensuring clean air out of the air conditioner.
	56°C Steri-Clean	Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.
	Self-Hygiene	Applies silver nanoparticles into components where air circulation flows through to kill molds and bacteria that threaten our health.
	Easy to Clean	Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and filter for deep cleaning.
	Puri-Clean	Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoy comfortable air conditioning.
	IFD Sterilization	Absorbs and kills virus and bacteria in field charging with efficiency up to 99%.
	UVC Sterilization	Emits UV light to sterilize the air passing through with efficiency up to 99.998%.
	UVC Pro	Inhibits the reproduction of bacteria and sterilizes virus breaks down hydron and oxygen molecule and generates ionic group which inhibits bacteria and sterilizes virus after contacting. Indoor unit test certification ongoing.
	Nano-aqua Sterilization	Ionizes the air and releases positive and negative ions to sterilize the air with efficiency up to 97.5%.
	HAF Filter	Utilizes strong electrostatic charge on its surface to remove harmful micro-particles including dust, virus and bacteria to provide healthier environment.

Blue Fin

Helps condensate flow smoothly via its hydrophilic and anti-corrosive properties. micro-particles including dust, virus and bacteria to provide healthier environment.

Ultimate Smart

Voice Control

Enjoy hands-free voice control via Haier smart air conditioners which are compatible with Amazon Alexa and Google Assistant.

WiFi Control

Download the Haier Smart Air 2 App to an Apple or Android smart device, and link the equipment to the smart device for system control from whenever and wherever you want.

Eco Sensor

Detects the room air conditions and human activities in real-time monitoring, and switches working mode to achieve higher energy efficiency and provide better experience to users.

Ultimate Comfort

A-PAM Control

Automatically adjusts DC bus voltage in accordance with the compressor load to increase operation voltage range.

PID Control

Maximizes the working frequency before reaching the desired temperature, and, after that, constantly makes real-time adjustments to match room air temperature with the desired temperature.

Turbo Cooling

The special control program allows the motor to work at a higher frequency. It enables users to enjoy a cool room within a much shorter time. micro-particles including dust, virus and bacteria to provide healthier environment.

Long Distance Airflow

The indoor unit get improved with better motor, optimized fan and air duct. It enables the air conditioner blows longer air than before. properties. micro-particles including dust, virus and bacteria to provide healthier environment.

Strong Airflow

With improved fan and air duct, the air conditioner supplies up to 25% more air volume than the conventional.

FEATURE GUIDE

Haier Air Conditioning

	Hyper PCB	The working voltage range is 130V-264V. It can start at the minimum of 130V, and withstand the maximum surge voltage of 450SV.
	Anti-Corrosion	Protect air conditioner from the damaging caused by harsh environment in costal regions where the air is high in humidity, salt, chemicals and acid, to enhance the reliability and air conditioning performance.
	Warm Start	Blows no cold air when the unit is starting to work at heating mode, or change from cooling mode to heating mode.
	-30°C Heating	Provides powerful heating performance in freezing winter with rotary compressor, DC motor, optimized bottom plate, electric heating wire and special programme, etc.
	-15°C Heating	Provides powerful heating performance in cold winter with rotary compressor, etc.
	-10°C Heating	Works at low ambient temperature with high frequency rotary compressor, optimized refrigerant system and special defrosting programme, etc.
	DC Motor	Ensures reliable operation with much higher energy saving and lower operation sound.
	DC Compressor	Reduces energy loss and maximize power input to achieve much higher energy efficiency.
	Smart Defrosting	Works only when necessary to reduce energy waste, and provide better experience by reducing defrosting time.
	Indoor 5-step Fan Speed	Works at powerful/high/middle/low/quiet speed to give users more choices in airflow control.
	Double Horizontal Flaps	Supplies airflow in more directions to enhance user experience.

	Auto Vertical Airflow	Moves vertically and works with horizontal flaps to achieve various air angle.
	3-minute Protection	Helps compressor avoid unexpected damages to have longer life.
	Auto Restart	Returns operation to previous air conditioner settings after a sudden power break.
	Wide Voltage Operation	Enables inverter air conditioner to start working from 150V-264V.
	88 Display	Shows clearly the real-time room temperature or desired temperature on the panel.
	Auto Mode	Helps air conditioner choose cooling or heating automatically based on desired temperature and ambient temperature.
	Golden Airflow	With unique air circulation system, conventional 10°C cold airflow is changed to 23°C golden airflow.
	Integrated Structure	Combines the bottom base, drain pan and frame casing together to level up product reliability and lower vibration.
	Constant 10°C Heating	Works when room temperature drops below 10°C to provide winter protection for pipes, unoccupied summer house, garage and basement.
	Low Watt Standby	Lowers stand-by power consumption from 8W to 1W by optimizing control programme.
	Integrated Valve Cover	Protects both wiring terminal block and globe valves, and enhances beauty.

FEATURE GUIDE

Haier Air Conditioning

	Outdoor 7-step Fan Speed	Makes adjustments according to the control of ambient sensor and tubing sensor to optimize heat exchange performance and improve energy efficiency.
	Coanda Plus Airflow	Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.
	Whispering Air	Ensures your peace of mind with optimized fan, air duct and motor.
	Precise Dehumidification	Controls your room air humidity at ideal level to keep the air clean and comfortable.
	Precise Temperature Control	Allows users to adjust temperature by 0.5°C to achieve much more precise comfort and higher energy saving.
	Dry Function	Adjusts fan speed automatically according to room air temperature to achieve either mild dehumidification or strong dehumidification.
	3D Airflow	Delivers comfortable airflow to every corner of your room with the constant horizontal and vertical movements of airflow blades.
	Intelligent Air	Directs the airflow upwards at cooling mode, and downwards at heating mode to provide better air conditioning performance.
	Sleep Mode	Provides maximum comfort and energy saving during your good night's sleep.
	I Feel	Haier air conditioner can control temperature through a remote controller and perceive the room temperature accurately.

Ultimate Fit

	Positioning Specifications	Help fix the mounting plate and hang air conditioner at proper position.
	Extended Kickstand	Makes the installation easy with larger operation area to install and service.
	Easy Access Control Board	Simplifies dismounting and maintenance without disassembling casing.
	Wider Tubing Space	Saves installation time with larger operation space for piping and wiring.
	Easy Access Fan Motor	Simplifies dismounting and maintenance without disassembling evaporator.
	Detachable Bottom Cover	Helps open the bottom to connect piping and wiring without screwdriver.
	Easy to Disassemble	Optimizes the structure of the indoor unit of air conditioner by simplifying the disassembly of core components including PCB, motor and fan, making the maintenance and cleaning easier than ever before.
	Self-diagnosis	Shows the error code on the LED display of the indoor unit to make the maintenance easier.
	Super Match	Realizes 100% free combination of indoor unit and outdoor unit, to make the sales management more easier and efficient.

Jade Super Match

Every Breath Counts

Puri-Clean

Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoy comfortable air conditioning.

56°C Steri-Clean

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

Self-Hygiene

Applies silver nanoparticles into components where air circulation flows through to kill molds and bacteria that threaten our health.

For detailed information about ErP, please visit our page <http://www.haier.com/ecodesign>.

UVC Pro
Inhibits the reproduction of bacteria and sterilizes virus breaks down hydron and oxygen molecule and generates ionic group which inhibits bacteria and sterilizes virus after contacting. Indoor unit test certification ongoing.

Easy to Clean
Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and filter for deep cleaning.

56°C Steri-Clean
Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

Flexis Plus

The More From Less

UVC Sterilization

Emits UV light to sterilize the air passing through with efficiency up to 99.9%. The sterilization rate of the whole machine: 92%(single UV module: 99.9%).

56°C Steri-Clean

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

Self-Clean

Freezes the evaporator with moisture in the air, and removes away dirt in melting, to ensure clean air out of Haier air conditioners.

Flexis Plus

Flair Plus

The More From Less

56°C Steri-Clean
Kills bacteria and viruses by heating the evaporator to 56 °C high temperature for 30 minutes.

Nano-Aqua Sterilization
Ionizes the air and releases positive and negative ions to sterilize the air with efficiency up to 97.5%.

Self-Clean
Freezes the evaporator with moisture in the air, and removes away dirt in melting, to ensure clean air out of Haier air conditioners.

Flair Plus

Pearl

Deliver Ultimate Airflow

UVC Sterilization

Emits UV light to sterilize the air passing through with efficiency up to 99.9%. The sterilization rate of the whole machine : 92%(single UV module : 99.9%).

56°C Steri-Clean

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

Coanda Plus Airflow

Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.

Tide Plus

Better Experience, Value for Money

Self-Clean

Freezes the evaporator with moisture in the air, and removes away dirt in melting, to ensure clean air out of Haier air conditioners.

Comfortable Sleep

Provides maximum comfort and energy saving during your good night's sleep.

Wifi Control (hOn)

Download the Haier hOn App to an Apple or Android smart device, and link the equipment to the smart device for system control from whenever and wherever you want.

Portable

Haier Air Conditioning

Strong Airflow

Cools down the whole room with auto-swing function.

Dry Function

Adjusts the fan speed to achieve dehumidification.

Self-Diagnosis

Shows error code when it malfunctions.

Portable

Key Features

Design

- Appearance
Innovative & Compact Design
- Display
LED Display
- Control
Ergonomic design of control panel

Smart

- Air Flow
Cool down the room quickly with auto-swing function
- Air Outlet
The air outlet can open and close automatically when switch on/off
- Self-Diagnosis
Show the error code when the unit has a malfunction
- 24h Timer
Switch on/off the unit whenever you want

Friendly

- Draining
Two drain ports, both auto-draining and manual draining are available
- Universal Wheels
The unit can be moved to wherever you wish
- Controller Bracket
Special design to hold the remote controller helps avoid losing
- For Easy Storage
The power cable can be held for easier storage.

Performance

- Multi-Function
Can be used as AC/Fan/Dehumidifier in your home or office
- Strong Performance
Strong cooling capacity
Strong airflow (350m³/hr, 9k model)
- Low Noise
48dB(A) at low fan speed

Rating Conditions: Cooling Indoor 27°C DB / 19°C WB, Cooling Outdoor 35°C DB / 24°C WB, Heating Indoor 20°C DB, Heating Outdoor 7°C DB / 6°C WB (DB: Dry Bulb; WB: Wet Bulb)

Net/GrossWeight	9.5/10.5kg	9.5/10.5kg	10/12kg	12/15kg

Key Features

Auto-swing function, speed up drying clothes.

Water full alarm function

Auto restart function.

Low noise.

LED display.

High-capacity water tank design,2.0 liter.

Casters for easily moving.

Concise appearance design, no screws on the outside.

Small body with high loading quantity,save logistics cost.

High and low two wind speed adjustable.

Good dehumidifying capacity, long distance air supply.

One button auto-dehumidifying function.

Automatically draining function.

24-hour timer function.

Power failure memory function.

Rating Conditions: Cooling Indoor 27°C DB/ 19°C WB, Cooling Outdoor 35°C DB/ 24°C WB, Heating Indoor 20°C DB, Heating Outdoor 7°C DB/ 6°C WB.(DB: Dry Bulb; WB: Wet Bulb)
